## **Caleb Chance Promoted to Senior Vice President**

*Pape-Dawson Proudly Announces the Promotion of Caleb Chance*

**San Antonio, Texas** (April 2, 2025) - Pape-Dawson is thrilled to announce the promotion of Caleb Chance, P.E., to Senior Vice President. With 23 years of experience in the civil engineering industry, Caleb leads design teams responsible for some of the largest master-planned communities in the San Antonio area.

In addition to leading several residential development teams, Caleb also oversees the firm's Geographic Information Systems (GIS) team. Caleb is actively involved in supporting Pape-Dawson's innovation initiatives, working to identify efficiencies between land development and GIS teams to streamline construction phase processes.

Beyond his role at Pape-Dawson, Caleb is actively involved in the local business and development community. He currently serves on the Real Estate Council of San Antonio (RECSA) Board and serves on the Metro SA Chamber Executive Board. In these roles, he collaborates with other San Antonio community leaders dedicated to promoting the city's growth and prosperity.

"Caleb's promotion to Senior Vice President serves as recognition of his outstanding leadership, technical expertise, and commitment to both our firm and the San Antonio community," says Shauna Weaver, P.E., Managing Principal, San Antonio. "Caleb's ability to build and maintain relationships with key clients is a testament to his quality of work. We are confident that he will continue to lead our land development teams to success in his new role."

###

### **About Pape-Dawson**

Founded in 1965, Pape-Dawson is a leading provider of engineering and consulting services. The firm provides a comprehensive range of services, including civil and structural engineering, environmental, landscape architecture and planning, and surveying services for development and critical infrastructure projects. The firm's network of engineers, surveyors, technicians, landscape architects, environmental specialists, biologists, planners, and construction management professionals produce projects that impact both the quality of life and economic opportunities in the communities they serve.
