**Pape-Dawson Engineers, Inc. Welcomes Mickey Marlow, P.E.,
as Vice President of Texas Transportation Programs**

Pape-Dawson Grows Fort Worth Leadership Team

Fort Worth, TX – Pape-Dawson Engineers, Inc. is pleased to announce the hire of Mickey Marlow, P.E. as Vice President of Texas Transportation Programs. In this role, Mr. Marlow will assist in growing Pape-Dawson’s statewide transportation initiatives and team strategies.

Mr. Marlow has spent the last 35 years working in contract management, transportation project management (including planning, design, and construction), bridge and construction inspection, and owner verification representation. He has extensive experience in operations management, transportation and traffic engineering, schematic and environmental document development and approval, PS&E development, and building site management and engineering.

Much of Mr. Marlow’s experience comes from his 28-year career with the Texas Department of Transportation (TxDOT), where he led numerous projects ranging from interchange and large complex freeway design and rehabilitation to rural roadway widening. In 2001 and 2002, Mr. Marlow was the recipient of the Commitment to Design Excellence Award from the TxDOT Design Division.

“We are thrilled Mickey has joined the Pape-Dawson team,” Pape-Dawson’s Managing Principal of North Texas, Brad Davis, P.E., stated. “His leadership within the transportation industry is incredibly valuable to our clients and community. With his help, we will have more key resources to support our transportation strategies.”

Mr. Marlow earned a Bachelor of Science in Engineering from Midwestern State University in 2007. He is a registered Professional Engineer in the states of Texas and Oklahoma.

###

Pape-Dawson Engineers is a leader in the civil engineering arena, helping to build stronger communities across Texas. As a respected engineering firm established more than 50 years ago, we provide services within our technical capabilities for land development, water resources, transportation, surveying, and environmental.
