John Tyler Promoted to Managing Principal, Transportation

Pape-Dawson Proudly Announces the Promotion of John Tyler

SAN ANTONIO, Texas (November 24, 2025) – Pape-Dawson is pleased to announce the promotion of John Tyler, P.E., RAS, to Managing Principal, Transportation. John brings more than 20 years of experience in delivering complex roadway, multimodal, and accessibility-focused projects across Texas.

Since joining Pape-Dawson in 2005, John has led transportation efforts in more than 100 communities in Texas. He led the creation of the TxDOT Comprehensive Accessibility Program (TCAP) – the first statewide, data-driven accessibility initiative of its kind, now used as an example by the Federal Highway Administration (FHWA).

John has been instrumental in advancing the firm’s transportation strategy, strengthening relationships with key public-sector clients, and supporting growth across Texas. Known for translating complex technical challenges into practical solutions, John has helped elevate statewide standards in accessibility compliance, multimodal planning, and Complete Streets implementation.

In addition to his project leadership, John serves on boards and committees for several local organizations, including as Chairman of the Comal Appraisal District, Comal ISD’s Community Leadership Committee, and was appointed to the Civil Engineering Academy for Texas Tech University. He has also held leadership roles within ASCE’s Texas Section.

“John’s leadership has strengthened our transportation practice at every level,” says Shauna Weaver, P.E., Managing Principal, San Antonio. “His ability to pair technical excellence with forward-thinking strategy has made a tremendous impact on our clients, our communities, and the future of Pape-Dawson.”

In his new role, John will continue leading multidisciplinary transportation teams, expanding partnerships with state and local agencies, and mentoring emerging leaders within the firm.
