Colin Johnson, P.E., Promoted to Senior Vice President

Pape-Dawson Proudly Announces the Promotion of Colin Johnson

CHATTANOOGA, Tennessee (May 19, 2026) – Pape-Dawson is pleased to announce the promotion of Colin Johnson, P.E., to Senior Vice President.

Colin brings more than two decades of experience in civil engineering. Since joining our Tennessee team in 2016, he has played a key role in delivering complex infrastructure projects across municipal, commercial, industrial, and residential sectors. His work spans Georgia, Tennessee, North Carolina, and Florida, including experience supporting multiple state Departments of Transportation and local municipalities.

His background in both engineering consulting and construction equips him with a well-rounded perspective on project delivery. By integrating technical design with practical construction insight, Colin helps clients navigate challenges while maintaining efficiency, quality, and cost-effectiveness.

In addition to his project work, Colin is actively involved in industry and community organizations, including the American Society of Civil Engineers (ASCE), the American Society of Highway Engineers (ASHE), Urban Land Institute (ULI) East Tennessee, and the Chattanooga Homebuilders Association.

“Colin’s leadership, technical depth, and ability to bring teams together around a shared vision have made a lasting impact on our organization and our clients,” said Allen Ramsey, P.E., Principal at Pape-Dawson. “As we continue to expand across the Southeast, his leadership will be instrumental in delivering exceptional results while developing the next generation of engineers.”

In his new role, Colin will focus on advancing regional growth and strengthening client relationships.
